A Calendar to Help Your Child Get Ready for Kindergarten 2026-2027

United Way of Champaign County — Helping all children succeed in school and in life

UNITED WAY

Champaign County

IT'S NEVER TOO EARLY TO GET READY FOR KINDERGARTEN!

One of the most exciting days for you and your child is the first day of kindergarten. This calendar is designed to help you and your child get ready for that special day.

Let's get started!

This calendar is for 3, 4, and 5 year olds who are preparing for kindergarten. The calendar runs from September through August; similar to the school year. Each month focuses on a different topic

with suggested daily activities based on Illinois Early Learning Standards and strategies developed by early learning experts.

Use this calendar as a guide for fun ideas. Include family members and friends in the activities. Have a wonderful year together as you get ready for the big day!

Remember that play is an important part of learning. Your child learns best when they are spending time with you and

doing activities that are fun and interesting.

Children develop at their own pace and "typical" development can vary greatly from child to child.

School readiness is much more than knowing letters and numbers. Children who are kindergarten ready have good social, self-help and physical skills and are developing a love for learning.

KINDERGARTEN READINESS CHECKLIST

This checklist is a guide to help prepare your child for school. It's best to look at the items on the list as goals to aim toward. If your child lags behind in some areas, don't worry. Remember that children grow and develop at different rates.

Good Health and Physical Well-Being

My child:

- Eats a balanced diet
- Gets plenty of rest
- Receives regular medical and dental care
- Has had all the necessary immunizations
- Runs, jumps, plays outdoors and does other activities that provide exercise and help develop large muscles
- Puzzles, scribbles, colors, paints and does other activities that help develop small muscles

Social and Emotional Preparation

My child:

- Is learning to explore and try new things
- Is learning to work well alone and to do many tasks independently
- Has many opportunities to be with other children and is learning to cooperate with them
- Is curious and motivated to learn
- Is learning to finish tasks
- Is learning to use self-control
- Can follow simple instructions
- Helps with family chores
- Is learning to use words to identify and express emotions

Language and General Knowledge

My child:

- Has many opportunities to talk and listen
- Is read to every day
- Has access to books and other reading materials
- Is learning about print and books
- Has television viewing monitored by an adult
- Is encouraged to ask questions
- Is encouraged to solve problems
- Has opportunities to notice similarities and differences
- Is encouraged to sort and classify things
- Is learning to write their name and address
- Is learning to count and plays counting games
- Is learning to identify and name shapes and colors
- Has opportunities to draw and to be creative
- Has opportunities to listen to and make music and to dance
- Has opportunities to get first-hand experiences and to do things in the world—to see and touch objects, hear new sounds, smell and taste foods

READ TOGETHER EVERY DAY

- Store your child's books in a special place that's easy to reach such as a basket, drawer or a low shelf.
- Place a small rug or pillow nearby to create a comfortable space for reading.
- Get a library card for your child (and yourself if you don't already have one).
- Find a place to read together away from distractions.
- Hold your child as you read to help develop a positive attitude toward reading.
- Children enjoy and learn by repetition, so it's OK if they want you to read the same books over & over.
- Talk about the story as you read. Ask questions and point out details in the pictures.
- Ask your child to retell the story in their own words.
- Talk about characters as you read together.
- Count out loud with your child every day while reading, cooking, and shopping, etc.

■ **Routines aren't boring—they're healthy.** Children feel more secure when they know what to expect. Keep a basic structure to your day. An evening routine might include setting the table, eating dinner, playtime, bath time, snack, tooth brushing, three stories, ten kisses and lights out! When children know what's coming next, it's easier for them to cooperate and you avoid a lot of temper tantrums.

LETTERS AND WORDS AT HOME AND AROUND TOWN

- Use an uppercase letter followed by lowercase letters when writing your child's name. For example: "Matthew."
- Make a name card for each member of your family. Help your child place them at the dinner table where everyone sits.
- Use letter magnets on the refrigerator or a cookie sheet to spell their name and familiar names: Mom, Dad.
- Place alphabet letters in a container. Pull them out one at a time and name them.
- Invite your child to "read" familiar business signs as you run errands.
- Read alphabet books and allow your child to name the letters they recognize.
- Read a book together then ask your child to go back and look for a certain letter of the alphabet found in the story.
- Write the alphabet on paper. Sing the ABC song slowly and have your child touch each letter as you go.

MATH IS EVERYWHERE!

- Talk math. Use words such as more, less; longer, shorter; heavy, light; etc.
- Count out LOUD every day. Start at 1 and count as you walk, put plates on the table, add apples to your grocery cart or as they wash their hands. Ask your child to count with you. Pause and ask, "What number comes next?"
- Hold up 5 fingers in front of your child then quickly hide your hand. Ask, "How many fingers did you see?"
- Name and describe shapes when you see them. "That is a square napkin. The box of cereal is a rectangle. That tire is a circle."
- Count: "Let's count the blocks."
- Compare: "Which plate has more crackers?"
- Explore: "Let's go on a shape hunt — can you find circles?"
- Question: "I wonder how many cars we can fit in this basket?"
- Sort: "Let's put all the yellow pieces in this pile."

■ **Do you feel like you're being watched?** You are! The best way to help children learn how to act is to show them through your own words and actions. They are master imitators. When they hear you say please and thank you, they learn to be polite. When they see you help others, they learn to be helpful. When they hear you call someone a name — they will do it too. So don't just tell children what to do — **show them!**

■ **The waiting game.** Waiting is hard for all of us, but especially for children. Sometimes waiting can't be avoided, so be prepared with a "bag of tricks." Carry a bag with a notebook, colored pencils, and a small hand held game or music player, books, simple snacks like raisins or crackers and a juice box or water bottle. Keep a few simple songs in your head like Itsy Bitsy Spider or ABCs, make up a story, or just count the change in your pocket or purse. Time flies when you are BOTH having fun.

- *The Many Colors of Harpreet Singh* by Supriya Kelkar, Illustrations by Alea Marley
- *Don't Hug Doug (He Doesn't Like It)* by Carrie Finison, Illustrations by Daniel Wiseman

RHyme TIME

- Introducing children to rhymes and rhyming words and playing with them gives children a head start in reading and spelling.
- Read Mother Goose rhymes with your child. After you've read one a few times ask your child to complete the rhyme with the correct word: "Hickory, Dickory, Dock. The mouse ran up the ___(clock)___."
- As your child becomes more familiar with the rhymes, encourage them to join in and say parts of the rhyme themselves (it will take a while before they can recite whole rhymes independently).
- Remember that nursery rhymes are portable, they can be enjoyed any-time, anyplace, anywhere! Share them at bath time, when getting ready for bed, while cooking or in the car.
- Change words to make your own personalized rhymes, for example, "Nye and Jill went up the hill" or, "Nia had a little lamb..."

TECHNOLOGY AS A TEACHING TOOL

- Pre-view age-appropriate TV programs, videos, music, computer games, websites and apps to be sure they teach what you want your child to learn.
- Set time limits on all electronics. Children need opportunities to run, play, explore and use their imaginations.
- Keep TV, computers, tablets, etc in a public area of your home not the child's bedroom to allow for easier monitoring.
- Watch programs or play games together. Use this time to talk to, teach, and connect with your child.
- Check out DVD's from the library on topics that interest your child such as animals, outer space, etc.
- Turn electronics off at mealtime. Use the time to talk about your day.

- See How They Grow series from DK and Sony Wonder
- PBS Series (Sid the Science Kid, Super WHY, WordWorld)
- Sesame Street series (Kids Favorite Songs, Sing Hoot and Howl with the Sesame Street Animals, Learning About Numbers)

PLAY AND LEARN

- Turn household chores into learning games — match socks as you fold laundry or line up canned goods by size. These activities can build math and cooperation skills. Feeling useful also helps children feel good which encourages them to continue to want to be helpful.
- Children can help set the table. Extend their memory by giving 3 step directions “Please get the milk from the refrigerator. Set it on the table. Get the napkins”.
- Make matching pairs of cards with stickers, drawings or pictures cut from magazines.
- Use Legos to create color patterns. Have your child continue the pattern: red, yellow, black, red, ... what comes next?
- Play seek and find. “Find something yellow in the kitchen.” “Find something that is square.”
- Pour and measure together in the kitchen, the bathtub or use a bucket of water outside on a hot summer day filled with measuring spoons and cups.

SATURDAY

■ **YOU are the best reward.** When your child does a good job or learns a new skill, reward them with your time and attention. Avoid using treats or toys as rewards or bribes for good behavior. Sweets aren't healthy and toys cost money. Time with you is free and builds bonds that last a lifetime.

Remember to say “please” and “thank you” today.

1

Play “Simon Says.” Focus on exercise activities (hopping, bending over, touching toes).

2

Count from 1 to 10 or as high as your child can count.

3

Look through old magazines and cut out circles, squares, and rectangles.

4

Cinco de Mayo
Sing a favorite song with your child.

5

Library Day!
Practice the ABC song.

6

Help your child practice shoe tying.

10

Practice writing numbers 1–10.

11

Play "I Spy." (Remember to include black objects.)

12

Play hopscotch.

13

Help a neighbor today.

14

Sort coins into groups by color or size.

15

Black week: look for things that are black this week.

16

Write ABCs or family names.

17

After listening to a story, have your child tell you what happened first, next, and last.

- *Play Like an Animal!* by Maria Gianferrari, Illustrations by Mia Powell

CRITICAL THINKING AND PROBLEM SOLVING

- Cut out pictures or gather items that go together and ask your child to match: shoe & sock; flower & vase; car & tire; fork & spoon, etc.
- When your child becomes frustrated while playing a game or playing with a friend, refrain from jumping in and solving the problem. Instead, ask questions and guide your child by asking “How did that happen?” and “What can you do differently?”
- Ask your child for their opinion on simple problems such as “Should we wash the car or take a walk?” Then follow up with “Why?” Or in the

grocery store ask “Chicken or fish for dinner?”

- Hide common objects from the house in a box or bag. Ask your child to close their eyes and reach inside. Don’t pull the item out but feel it and try to guess what it is.
- Cook in the kitchen together and ask questions as you mix and stir and bake. “What will happen when we add this milk to the flour?” “What will happen to the frosting when I add this drop of food coloring?”

ALL ABOUT ME

- Make a book by stapling or tying blank pages together with yarn.
- Find photos of your child to put in the book. Give them magazines to cut out pictures of things they like.
- Ask your child questions and write the question and their exact answer in the book: My name is _____; I like to _____; My favorite food is _____; My favorite color is _____; I like it when my mom _____; etc
- Make another page of personal information your child should know and practice this often: My name is _____; I am a _____; I was born on _____; My address is _____; My phone number is _____; I'm allergic to _____; In an emergency I should call _____; etc.

■ **Do you get tired of saying “no” and “don’t do that” all the time?** Try switching it up and give your child positive directions. Tell them what **to do** rather than what NOT to do: Say “use your quiet voice” instead of “don’t yell!” or “keep the water in the bathtub” instead of “quit splashing.” Being positive sets a more pleasant mood and children are more likely to follow directions happily.

Library Day!

1

Continue teaching your child their phone number and address.

Write simple names or words.

GET READY!

- Before the first day of school, choose school supplies and label them.
- Play school together and take turns being the teacher.
- Eat a meal from a lunch box or tray. Show your child how to clean up and open milk/juice cartons.
- Visit your child's school and explore the classroom and playground.
- Talk about the kinds of things they will be doing at school.
- Two weeks before school starts, adjust your child's bed time to what it will be during the school year.
- Create a healthy routine that allows time for family meal, homework, play, bath, teeth brushing and a bedtime story.
- Practice zippers, buttons, opening backpack, putting on tennis shoes. Not all children have mastered shoe tying by the first day of school and that's OK. Just remember to practice once in a while.

■ **Seven positives.** Did you know on average it takes seven positive comments to balance the effect of just one negative comment? Saying "good girl" or "good boy" isn't enough. Be specific and tell your child what was good about it. For example, "Wow. That tower is the tallest you've ever built. You worked really hard on it and I like the columns on the side."

- Preparing for kindergarten: www.chambanamoms.com/2025/07/15/prepare-for-kindergarten-champaign-urbana/

All parents/legal guardians of children who will be five years of age on or before September 1 are encouraged to register their children for kindergarten.

Early registration begins as early as March 1 for some schools. Check with your local school district for your kindergarten registration information.

In most cases, the parent/legal guardian will need to bring the following for kindergarten registration:

- Child's official birth certificate (with raised seal)
- Child's social security number
- Proof of residency (required for all registrants) — copy of signed mortgage, contract to build or lease agreement showing the owner/resident's name and address OR TWO of the following items:
 - Utility bills which have the name and address of the resident
 - Valid driver's license
 - Voter registration card
 - State medical card
 - Notarized affidavit of residency from the parent or person with whom the child is residing, affirming that the child eats and sleeps at the residence

All students entering kindergarten must provide documentation of a current physical examination and immunizations PRIOR to starting school, AND proof of a dental exam. You do not need proof of a physical or dental exam to register your child.

It is recommended that you make your child's appointments for a kindergarten physical and dental exam by April or even earlier! Students who do not have physical and dental exams by the first day of school may not be allowed to attend school.

PARENT RESOURCES

DEVELOPMENTAL SCREENINGS

All children develop in unique ways and at different rates. Screenings are a fun and comfortable way to learn how a child is developing, and to address developmental questions parents and caregivers may have.

Champaign County residents can have their children screened by calling their local school district:

- Champaign: 217-351-3881
- *Urbana: 217-384-3616
- Mahomet-Seymour: 217-586-5833
- Rural Champaign County: 217-892-8877
- *Developmental Services Center: 217-356-9176

*Can do birth to 3 year old screenings.

40 DEVELOPMENTAL ASSETS FOR EARLY CHILDHOOD

The Search Institute has identified forty building blocks that are essential for helping children become healthy, caring, and responsible individuals. These building blocks, also called Developmental Assets™, are competencies that children develop through their experiences with people in their world (parents, teachers, child care providers, librarians, bus drivers, and others).

EXTERNAL ASSETS

SUPPORT

- 1.** Family support—Parent(s) and/or primary caregiver(s) provide the child with high levels of consistent and predictable love, physical care, and positive attention in ways that are responsive to the child's individuality.
- 2.** Positive family communication—Parent(s) and/or primary caregiver(s) express themselves positively and respectfully, engaging young children in conversations that invite their input.
- 3.** Other adult relationships—With the family's support, the child experiences consistent, caring relationships with adults outside the family.
- 4.** Caring neighbors—The child's network of relationships includes neighbors who provide emotional support and a sense of belonging.
- 5.** Caring climate in child-care and educational settings—Caregivers and teachers create environments that are nurturing, accepting, encouraging, and secure.
- 6.** Parent involvement in child care and education—Parent(s), caregivers, and teachers together create a consistent and supportive approach to fostering the child's successful growth.

- The more assets children have the better. Research shows that adolescents who report having more assets are more likely to be successful in school and in their personal life. The Search Institute has found that most adolescents have only 18 to 20 of these 40 Developmental Assets™.
- Starting early is critical to helping children build assets. Your use of this Kindergarten Readiness Calendar is a great start.
- Review the Developmental Assets™ list below and see how you can help children entering kindergarten build their assets.

15. Positive peer relationships—Parent(s) and caregivers seek to provide opportunities for the child to interact positively with other children.

CONSTRUCTIVE USE OF TIME

16. Positive expectations—Parent(s), caregivers, and teachers encourage and support the child in behaving appropriately, undertaking challenging tasks, and performing activities to the best of her or his ability.

17. Play and creative activities—The child has daily opportunities to play in ways that allow self-expression, physical activity, and interaction with others.

18. Out-of-home and community programs—The child experiences well-designed programs led by competent, caring adults in well maintained settings.

19. Religious community—The child participates in age-appropriate religious activities and caring relationships that nurture her or his spiritual development.

20. Time at home—The child spends most of her or his time at home participating in family activities and playing constructively, with parent(s) guiding TV and electronic game use.

29. Honesty—The child begins to understand the difference between truth and lies, and is truthful to the extent of her or his understanding.

30. Responsibility—The child begins to follow through on simple tasks to take care of themselves and to help others.

31. Self-regulation—The child increasingly can identify, regulate, and control their behaviors in healthy ways, using adult support constructively in particularly stressful situations.

SOCIAL COMPETENCIES

32. Planning and decision making—The child begins to plan for the immediate future, choosing from several options and trying to solve problems.

33. Interpersonal skills—The child cooperates, shares, plays harmoniously, and comforts others in distress.

34. Cultural awareness and sensitivity—The child begins to learn about their own cultural identity and to show acceptance of people who are racially, physically, culturally, or ethnically different from them.

EMPOWERMENT

7. Community cherishes and values young children—Children are welcomed and included throughout community life.

8. Children seen as resources—The community demonstrates that children are valuable resources by investing in a child-rearing system of family support and high-quality activities and resources to meet children's physical, social, and emotional needs.

9. Service to others—The child has opportunities to perform simple but meaningful and caring actions for others.

10. Safety—Parent(s), caregivers, teachers, neighbors, and the community take action to ensure children's health and safety.

BOUNDARIES & EXPECTATIONS

11. Family boundaries—The family provides consistent supervision for the child and maintains reasonable guidelines for behavior that the child can understand and achieve.

12. Boundaries in child-care and educational settings—Caregivers and educators use positive approaches to discipline and natural consequences to encourage self-regulation and acceptable behaviors.

13. Neighborhood boundaries—Neighbors encourage the child in positive, acceptable behavior, as well as intervene in negative behavior in a supportive, nonthreatening way.

14. Adult role models—Parent(s), caregivers, and other adults model self-control, social skills, engagement in learning, and healthy lifestyles.

INTERNAL ASSETS

COMMITMENT TO LEARNING

21. Motivation to mastery—The child responds to new experiences with curiosity and energy, resulting in the pleasure of mastering new learning and skills.

22. Engagement in learning experiences—The child fully participates in a variety of activities that offer opportunities for learning.

23. Home-program connection—The child experiences security, consistency, and connections between home and out-of-home care programs and learning activities.

24. Bonding to programs—The child forms meaningful connections with out-of-home care and educational programs.

25. Early literacy—The child enjoys a variety of pre-reading activities, including adults reading to her or him daily, looking at and handling books, playing with a variety of media, and showing interest in pictures, letters, and numbers.

POSITIVE VALUES

26. Caring—The child begins to show empathy, understanding, and awareness of others' feelings.

27. Equality and social justice—The child begins to show concern for people who are excluded from play and other activities or not treated fairly because they are different.

28. Integrity—The child begins to express her or his views appropriately and to stand up for a growing sense of what is fair and right.

35. Resistance skills—The child begins to sense danger accurately, to seek help from trusted adults, and to resist pressure from peers to participate in unacceptable or risky behavior.

36. Peaceful conflict resolution—The child begins to compromise and resolve conflicts without using physical aggression or hurtful language.

POSITIVE IDENTITY

37. Personal power—The child can make choices that give a sense of having some influence over things that happen in their life.

38. Self-esteem—The child likes themselves and has a growing sense of being valued by others.

39. Sense of purpose—The child anticipates new opportunities, experiences, and milestones in growing up.

40. Positive view of personal future—The child finds the world interesting and enjoyable, and feels that they have a positive place in it.

Read.Talk.Play. *Every Day!*

WWW.READTALKPLAY.ORG

The United Way of Champaign County is dedicated to bringing people and resources together to create positive change and lasting impact in our community. We focus a portion of funds raised locally on strategies that provide a firm foundation for our youngest residents so they can grow and develop into successful middle and high school students. Ultimately, students will graduate with a plan and the skills needed to implement that plan so they can be productive, contributing members of their community.

Thanks to the generous support of our community and sponsors, these calendars are available free to all parents, grandparents and caregivers of children ages 3, 4 and 5 years old.
